

Weekly / Biweekly / Monthly

Explanation of Services

Weekly Service- \$90.00/week

A. A technician will come out once per week to maintain your pool. Included in this service is the following:

- Vacuuming the pool if we can see the bottom / and if the water is at an operational level. If pool water level is low, we can return when condition has been corrected for an additional charge.
- Skimming the surface of the water.
- Cleaning the tile.
- Cleaning out the pump and skimmer baskets
- Test and balance the water.
- Backwashing the filter when necessary.
- Making sure the pool equipment is in working condition.

B. You will receive priority scheduling for opening and closing your pool.

C. You receive 10% off of the price of chemicals all season long.

Biweekly Service- \$100.00/hour

A. A technician will come out once every other week to maintain your pool. Included in this service is the following:

- Making sure the pool equipment is in working condition.

B. You will receive priority scheduling for opening and closing your pool.

C. You receive 10% off of the price of chemicals all season long.

What we require of our recurring service customers:

1. All weekly/biweekly/monthly customers must use chemicals purchased from Gallagher Pools & Spas. Our technicians are highly trained in the specific applications of our chemical line.
2. We ask that you keep a supply of chemicals at your home, so we can use them each visit. We ask you to keep them in a garage, shed or a plastic container that is accessible to us. If we cannot get to your chemicals or you are out of a chemical, we will sell it to you off of our trucks.
3. We understand that you want us to do what is required to keep your pool in running condition. Any parts, services and or visits over and above the weekly/biweekly/monthly service will be an additional charge.
4. If you know in advance that you will NOT require service for any particular week, please call the office as soon as possible. This makes dispatching jobs much easier.
5. Biweekly/Monthly only - It is not possible to maintain your pool with maintenance only being done biweekly/monthly. It is CRITICAL for you to keep the pool clean as well as maintaining proper chemical and water levels during the weeks we are not scheduled.
